This is just a ROUGH draft document for discussion only. I'm not asking for specific comments on it as it will definitely need more work, but it's a document just to use to frame what our submittal should look like in form and content and to get us to start thinking in that direction.

Thank you,
Heidi

Yes I think that would be good. I have at least the following few things I'd like to discuss:

- I'll tee up a document for you to take a look at. It's something we can maybe discuss further in the next meeting.
- EPA's policy on tribal consultation, it's something that came up in EPA-ADEQ discussions re: UIC
- Liz Goldmann -- discussion with Sig. Deg. group

HI ADEQ: If it works for you, I would like to have this call tomorrow for an update. It's been a while and I know you have been really busy with the workgroups, and more. It would be good to hear about the workgroup process, issues that

may be most challenging, any request for us and your current schedule. Let me know if this will work or if you want to cancel. Thanks!

PS. The EPA 404 assumption website is now live at <https://www.epa.gov/cwa404g>
